PROFILE

I am a Computer Science student with a focus on cybersecurity, aiming to become a top-level Penetration Tester. I have experience in front-end and back-end web development, various programming languages, and network technologies. Committed to continuous learning, I have enhanced my skills through competitive programming and hands-on projects. I am eager to leverage my technical expertise and project management skills in a dynamic environment.

EDUCATION

Bachelor of Science in Computer Science

Minia University

Minia, Egypt

Expected Graduation: 6/2026

- GPA: 2.7
- Currently enrolled as a diligent student, consistently maintaining a high academic standing. Actively engaged in coursework covering a wide range of computer science topics.
- Participating in hands-on projects and practical assignments to enhance understanding of theoretical concepts. Collaborating with peers and faculty members to foster academic growth.

WORK EXPERIENCE

PHP Trainee

Information Technology Institute (ITI)

Duration: 23 Jul 2023 to 24 Aug 2024

Training Hours: 90

- * Successfully completed an intensive training program in PHP development.
- * Gained comprehensive knowledge in PHP programming, including object-oriented programming, database integration, and web development.

Participant

ACPC (Arab Collegiate Programming Contest)

9/2022 – Present

- * Actively participated in the ACPC problem-solving competition, showcasing strong analytical and coding skills.
- * Collaborated with team members to solve complex algorithmic challenges under time constraints.

VOLUNTEER EXPERIENCE

Project Manager

Enactus Team

- * Collaborated with team members to foster a learning environment and support skill development.
- * Managed team members, delegated tasks, and ensured timely completion of projects.

Volunteer Trainer

ICPC and ACM

- * Conducted problem-solving practice sessions for volunteer teams such as ICPC, helping members enhance their analytical and coding abilities.
- * Participated in ACM cybersecurity training, gaining insights into various aspects of cybersecurity.

SKILLS

Technical Skills:

Programming Languages: PHP, [Add any other languages] , Web Development: HTML, CSS, JavaScript. , Database Management: MySQL, PostgreSQL , Cybersecurity: Penetration Testing.

Soft Skills: Communication, Teamwork, Problem-solving, Time Management, Adaptability, Project Management
